## Lighting Solutions

### Alberta Line Card

Whether you require help with Energy Efficiency Alberta, lighting audits, implementing energy efficient lighting designs, employing productivity gains through lighting designs, or keeping pace with the rapid changes and improvements with lighting products, our lighting division can help. Our entire branch network has lighting experience and product to support your application. We act as a sales and technical support team to back them up. There is no shortage of lighting product inventory at EBH to help support you whether you are working on a retrofit project to improve lighting, new construction or implementing lighting controls.
